DETAILED ACTION

1. Applicant's Amendment filed 02/11/2005 has been reviewed and placed of record in the file.

Allowable Subject Matter

2. **Claims 1-2, 4-7, 9-15 and 31-39** are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a thin film device or a magnetic random access memory device having all exclusive limitations as recited in claims 1, 31, 38, and 39, comprising either at least a patterned thin film layer or a plurality of magnetic memory elements, a heater material coupled to at least one of the patterned thin film layers or at least one of the plurality of magnetic memory elements for providing thermal assistance to the at least one of the patterned thin film layers or for thermally assisting in switching a magnetic orientation of the at least one of the plurality of magnetic memory elements, characterized in that the heater material comprises at least one of amorphous silicon and amorphous carbon or that a split conductor is coupled to the heater material to supply energy thereto and the heater material is connected between the split conductor,

where "split conductor" is as detailed by Applicant in the Remarks filed 02/11/2005, page 14; and where "amorphous silicon" is clearly distinguishable from "doped silicon" as asserted by Applicant on the same page of the Remarks, as far as the heat material is concerned.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
